

Sked® Basic Rescue System

Product Description SK-200(C)-OR

The original and still the best rescue stretcher for confined space, high angle or technical rescue, and traditional land based applications. The Sked stretcher is a revolutionary design which provides outstanding patient protection and security.

The Sked comes equipped for horizontal hoisting by helicopter or vertical hoisting in caves or industrial confined spaces. When the patient is packaged the stretcher becomes rigid. The durable plastic provides protection for the patient while allowing extrication through the most demanding confined spaces. The stretcher is rolled for storage in a tough cordura backpack which is included with the system. The complete rescue system ships at 19 lbs and comes complete for most applications. Also available in O.D. Green for military, S.W.A.T. and other tactical situations. The SK200C-OR is equipped with cobra buckles.

The SK-200-OR Sked® and SK200C-OR (cobra buckles) Basic Rescue System - International Orange comes with:

- SK-201-OR The Sked® Stretcher - International Orange
- SK-202 Cordura backpack
- SK-203 Horizontal Lift Slings (pair)
- SK-204 Sked® Tow Strap
- SK-205 Removable Webbing Handles
- SK-206 Steel Locking 'D' Carabiner
- SK-207 Sked® Vertical Lift Sling

Technical Specifications

Size	:36x96"
Weight	:19 lbs
Material	:Low density E-Z Glide polyethylene
Temp range	:melt 260C usable until -84C
Hor. Slings	:Rated 45KN
Vert. Slings	:Rated 31KN
CE-EN	:Partially DIN EN 1865:1995 DIN EN 1498:2007 DIN EN 354:2002

Sked® Basic Foam Flotation System Inflatable Flotation System

Product Description SK-600-OR SK-600-B

This flotation system maintains the Sked® in a nearly vertical position in the water. It is self-righting and keeps the patient's head completely out of water, even in rough seas. The side floats and chest pad provide buoyancy sufficient to support two rescuers in the water in addition to the patient, while the lead shot filled ballast keeps the foot end down and the head elevated out of the water. It will provide approximately 80 lbs of flotation. The system is available in a variety of configurations, including an option with CO2 inflatable side float logs and an empty ballast bag with hook and loop closure which can be filled with rocks just prior to use.

The SK-600 Basic Foam Flotation System comes with:

- SK-601 Ballast Weight
- SK-602 Inflatable Chest Pad
- SK-603 Ethafoam Floats (pair)
- SK-604 Extra Long Handles
- SK-209 Retaining Strap

The SK-600-B inflatable flotation system maintains the Sked® in a nearly vertical position in the water.

The SK-600-B Inflatable Flotation System comes with:

- SK-602 Inflatable Chest Pad
- SK-605/SK-606 CO2 Inflatable Float 5" Diameter Logs (pair)
- SK-653 CO2 CARTRIDGE - 38g (pair)
- SK-604 Extra Long Handles
- SK-607 Ballast Bag (3.6 lbs)
