

AZTEK DOUBLE PULLEYS

The AZTEK pulley blocks and sheaves are machined from solid aluminum, feature swivel and prusik connection points, and utilize high-efficiency bearings. These double pulleys were developed in the early 2000's by Reed Thorne of Sedona based *Ropes That Rescue*. The AZTEK system has become a valuable multipurpose tool of rescue and technical rope access practitioners. Each pulley is dual certified to NFPA and EN standards. The AZTEK pulleys are offered individually or included in our [AZTEK ProSeries™ System](#) and [AZTEK LT System](#).

Note: The Slate blue pulley includes the AZTEK quick release pin and the Orange pulley comes with the side becket cover and screw.

Option	Orange
Item	300321
PRODUCT NAME	PULLEY, AZTEK DOUBLE, ORG, CMC
WEIGHT	226 G (7.9 OZ)
SHEAVE	ALUMINUM
SHEAVE TREAD SIZE	26 X 10 MM (1 X 0.4 IN)
NFPA RATING	TECHNICAL USE
EN STANDARDS	EN 12278
3 SIGMA MBS	36 KN (8,093 LBF)

Option	Slate Blue
Item	300322
PRODUCT NAME	PULLEY, AZTEK DOUBLE, SLT, CMC
WEIGHT	226 G (7.9 OZ)
SHEAVE	ALUMINUM
SHEAVE TREAD SIZE	26 X 10 MM (1 X 0.4 IN)
NFPA RATING	TECHNICAL USE
EN STANDARDS	EN 12278
3 SIGMA MBS	36 KN (8,093 LBF)
